**SECTION 1.4. Adoption.** The Board shall formally adopt the budget in an open meeting held in accordance with Crossroads’ Bylaws by June 30, according to statutory provisions, and before the expenditure of any funds. By law the approved estimated expenditures for each fund cannot exceed the estimated revenues to be received plus the unencumbered beginning cash balance for the fund.

**SECTION 1.5. Minutes.** The Secretary of the Board will record the adoption of the budget and any amendments in the Board meeting minutes in which the adoption occurs.

**SECTION 1.6. Post-Adoption.** After the beginning of the fiscal year, the Executive Director and Chief Operating Officer shall review with the Board the adopted budget in relationship to the beginning cash balances for each fund.

**APPENDIX F**  
**CONFLICT OF INTEREST POLICY**

This policy establishes expectations for governing board member conflicts of interest.

**ARTICLE I**

**Purpose**

The purpose of the conflict of interest policy is to protect this tax-exempt organization's (Organization) interest when it is contemplating entering into a transaction or arrangement that might benefit the private interest of an officer or director of the Organization or might result in a possible excess benefit transaction. This policy is intended to supplement but not replace any applicable state and federal laws governing conflict of interest applicable to nonprofit and charitable organizations. As a charter school, certain special state conflicts of interest policies apply as discussed herein.

**ARTICLE II**

**Definitions**

**1. Interested Person**

Any director, principal officer, or member of a committee with governing board delegated powers, who has a direct or indirect financial interest, as defined below, is an interested person.

**2. Financial Interest**

A person has a financial interest if the person has, directly or indirectly, through business, investment, or family:

- a. An ownership or investment interest in any entity with which the Organization has a transaction or arrangement,
- b. A compensation arrangement with the Organization or with any entity or individual with which the Organization has a transaction or arrangement, or
- c. A potential ownership or investment interest in, or compensation arrangement with, any entity or individual with which the Organization is negotiating a transaction or arrangement.

Compensation includes direct and indirect remuneration as well as gifts or favors that are not insubstantial.

A financial interest is not necessarily a conflict of interest. Under Article III, Section 2, a person who has a financial interest may have a conflict of interest only if the appropriate governing board or committee decides that a conflict of interest exists.

## ARTICLE III

### Procedures

#### 1. Duty to Disclose

In connection with any actual or possible conflict of interest, an interested person must disclose the existence of the financial interest and be given the opportunity to disclose all material facts to the directors and members of committees with governing board delegated powers considering the proposed transaction or arrangement.

#### 2. Determining Whether a Conflict of Interest Exists

After disclosure of the financial interest and all material facts, and after any discussion with the interested person, s/he shall leave the governing board or committee meeting while the determination of a conflict of interest is discussed and voted upon. The remaining board or committee members shall decide if a conflict of interest exists.

Under Missouri law, the following are conflicts of interest. The Board has no discretion on whether these items present a conflict of interest. No person shall be appointed to the board unless they meet the following requirements. Any board member who is in violation of any of these requirements is ineligible to serve and shall immediately forfeit their office:

a. No member of the Board shall hold any other office or employment from the board while serving as a member of the board.

b. No member of the board shall have any substantial interest (see section 105.450 RSMo for a definition) in any entity employed by or contracting with the board.

c. No member of the board shall be an employee of a company that provides substantial services to the charter school.

#### 3. Procedures for Addressing the Conflict of Interest

a. An interested person may make a presentation at the governing board or committee meeting, but after the presentation, s/he shall leave the meeting during the discussion of, and the vote on, the transaction or arrangement involving the possible conflict of interest.

b. The chairperson of the governing board or committee shall, if appropriate, appoint a disinterested person or committee to investigate alternatives to the proposed transaction or arrangement.

c. After exercising due diligence, the governing board or committee shall determine whether the Organization can obtain with reasonable efforts a more advantageous transaction or arrangement from a person or entity that would not give rise to a conflict of interest.

d. If a more advantageous transaction or arrangement is not reasonably possible under circumstances not producing a conflict of interest, the governing board or committee shall determine by a majority vote of the disinterested directors whether the transaction or arrangement is in the Organization's best interest, for its own benefit, and whether it is fair and reasonable. In conformity with the above determination, it shall make its decision as to whether to enter into the transaction or arrangement.

#### 4. Violations of the Conflicts of Interest Policy

a. If the governing board or committee has reasonable cause to believe a member has failed to disclose actual or possible conflicts of interest, it shall inform the member of the basis for such belief and afford the member an opportunity to explain the alleged failure to disclose.

b. If, after hearing the member's response and after making further investigation as warranted by the circumstances, the governing board or committee determines the member has failed to disclose an actual or possible conflict of interest, it shall take appropriate disciplinary and corrective action.

### ARTICLE IV

#### Records of Proceedings

The minutes of the governing board and all committees with board delegated powers shall contain:

a. The names of the persons who disclosed or otherwise were found to have a financial interest in connection with an actual or possible conflict of interest, the nature of the financial interest, any action taken to determine whether a conflict of interest was present, and the governing board's or committee's decision as to whether a conflict of interest in fact existed.

b. The names of the persons who were present for discussions and votes relating to the transaction or arrangement, the content of the discussion, including any alternatives to the proposed transaction or arrangement, and a record of any votes taken in connection with the proceedings.

- b. A voting member of any committee whose jurisdiction includes compensation matters and who receives compensation, directly or indirectly, from the Organization for services is precluded from voting on matters pertaining to that member's compensation.
- c. No voting member of the governing board or any committee whose jurisdiction includes compensation matters and who receives compensation, directly or indirectly, from the Organization, either individually or collectively, is prohibited from providing information to any committee regarding compensation.

- a. Has received a copy of the conflicts of interest policy,
- b. Has read and understands the policy,
- c. Has agreed to comply with the policy, and
- d. Understands the Organization is charitable and in order to maintain its federal tax exemption, it must engage primarily in activities which accomplish one or more of its tax-exempt purposes.

## ARTICLE VII

### Periodic Reviews

To ensure the Organization operates in a manner consistent with charitable purposes and does not engage in activities that could jeopardize its tax-exempt status, periodic reviews shall be conducted. The periodic reviews shall, at a minimum, include the following subjects:

a. Whether compensation arrangements and benefits are reasonable, based on competent survey information, and the result of arm's length bargaining,

b. Whether partnerships, joint ventures, and arrangements with management organizations conform to the Organization's written policies, are properly recorded, reflect reasonable investment or payments for goods and services, further charitable purposes and do not result in inurement, impermissible private benefit or in an excess benefit transaction.

## ARTICLE VIII

### Use of Outside Experts

- Be consistent with the policies and procedures that apply uniformly to both federally-financed and other activities of the non-Federal entity;

Time and effort reporting is required when any part of an individual's salary is charged to a federal program or used as match for a federal program.

Semi-Annual Certification: Where employees are expected to work solely on a single Federal award or cost objective, charges for their salaries and wages will be supported by periodic certifications that the employees worked solely on that program for the period covered by the certification. These certifications are required to be prepared at least semi-annually. The certifications must contain the signatures of the employee and a school official

Monthly Personnel Activity Report (PAR): Where employees work on multiple activities or cost objectives, a distribution of their salaries or wages will be supported by personnel activity reports (PARs). Salaries and wages of employees used in meeting cost sharing or matching requirements of Federal awards must be supported in the same manner as those claimed as allowable costs under Federal awards.

Charges for salaries must be based on records that accurately reflect the work performed. These records must be:

No employee, officer or agent of the grantee or subgrantee shall participate in selection, or in the award or administration of a contract supported by Federal funds if a conflict of interest, real or apparent, would be involved.

The School will review all proposed purchases to avoid unnecessary or duplicative items, and maintain records sufficient to detail the significant history of procurements. These records will include: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.

Questions regarding procurement may be made to the School's Treasurer. Where School employee or Board member misconduct or corruption has affected the validity of the bidding process, discipline may follow up to and including termination of employee or removal from the Board.

SECTION 5.1. Open and Free Competition The Executive Director shall ensure that all procurement transactions utilizing federal grant funds are conducted in a manner that provides open and free competition. To prevent restriction on competition, procurement transactions will ensure that all solicitations incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition, but shall identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals. Awards must be made to the bidder/offeror whose bid/offer is responsive to the solicitation and is most advantageous to Crossroads considering price, quality, and other relevant factors deemed appropriate by the school.

SECTION 5.2. Conflicts of Interest. Pursuant to the Conflict of Interest Board Policy, no

employee, officer, or agent of, who has a real or apparent conflict of interest, will participate in the selection, award, or administration of a contract supported by federal funds. The Executive Director shall also ensure the evaluation of the contractor performance and document whether the contractor has met the terms, conditions, and specifications of the contract.

#### SECTION 5.5 Contract Provision

Required Contract Provisions as required by 34 C.F.R. § 80.36(i), certain contract provisions must be included when using federal funds.

SECTION 5.6 The school shall utilize the most appropriate procurement method based on the particular procurement. The school utilize one of the following methods or any more restrictive method:

- Small purchase procedures. Small purchase procedures are those simple and

informal procurements for securing services, supplies or other property that cost between \$10,001 to \$249,999. Price and rate quotations must be obtained from at least two qualified sources.

- Sealed bids (formal advertising). Bids are publicly solicited and a firm fixed price contract is awarded. This method is preferred for procuring construction.
- Competitive proposals. The technique of competitive proposals is normally conducted with more than one source submitting an offer and either a fixed price or cost reimbursement type of contract is awarded.
- Noncompetitive proposals. This is the solicitation of a proposal from only one source and may be used only when one or more of the following applies:
  - o The item is available only from a single source;
  - o The public emergency for the requirement will not permit a delay;
  - o The pass-through entity authorizes noncompetitive proposals in response to a written request; and/or
  - o After solicitation of a number of sources, competition is determined inadequate.

#### SECTION 6. Travel Costs.

Travel costs are the expenses for transportation, lodging, subsistence, and related items incurred by employees who are in travel status on official business of the non-Federal entity. These costs are reimbursable with appropriate approval and documentation of expenses. Travel costs charged to Federal awards/funds must meet the requirements of 2 C.F.R. § 200.474.

SECTION 6.1 Travel costs may be charged on an actual cost basis, on a per diem or mileage basis in lieu of actual costs incurred, or on a combination of the two, provided the method used is applied to an entire trip and not to selected days of the trip and results in charges consistent with those normally allowed in like circumstances in the school's non-federally- funded activities and in accordance with the school's written travel reimbursement policies.

SECTION 6.2 Cost incurred by employees for travel, including costs of lodging, other subsistent, and incidental expenses, must be considered reasonable and otherwise allowable only to the extent such costs do not exceed charges normally allowed by the school as a result of the school's written travel policy.

If these costs are charged to the Federal award, documentation must justify that (1) the

Participation of the individual is necessary to the Federal award; and (2) the costs are reasonable and consistent with the school's travel policy. Document may include any or all of the following: an agenda; prior written approval; and/or written justification statement.

SECTION 6.3 The school shall not use its grant funds for temporary dependent care costs unless specifically permitted by the authorizing statute, regulation, and Department.

SECTION 7. Compliance with the Cash Management Improvement Act. In order to comply with the Cash Management Improvement Act (CMIA) the Department of Elementary and Secondary Education will only make payments to the school for reimbursements. Reimbursements are only for funds "spent"—transactions that are recorded on the school's books and the funds delivered to the recipients.

SECTION 7.1. The school may only make requests for payment once an initial budget application for the grants has been approved and must only include actual cumulative expenditures up to the payment request submission date.

SECTION 7.2 The school must at least annually submit an accounting of any interest earned on any Federal funds to the federal Department of Health and Human Services through the Department of Elementary and Secondary Education. The school may retain up to \$500 of earned interest annually on all combined Federal programs for administrative expenses. The school must document all administrative expenses in order to claim the interest offset. Under this section, the interest calculation is the amount of reimbursement times the annualized Federal interest rate for the fiscal year times the number of business days the funds were held until delivery. The federal interest rates may be found at <http://www.fms.treas.gov/cmia/index.html>.

- Items of equipment with a current per-unit fair market value in excess of \$5,000 may be retained by the non-Federal entity or sold. The Federal awarding agency is entitled to an amount calculated by multiplying the current market value or proceeds from the sale by the Federal percentage of participation in the cost of the original purchase. If the equipment is sold, the Federal awarding agency may permit the non-Federal entity to deduct and retain from the Federal share \$500 or ten percent of the proceeds, whichever is less, for its selling and handling expenses. Proper sales procedures must be established to ensure the highest possible return.

## **APPENDIX M**

### POLICY REGARDING BONDED INDEBTEDNESS

#### Section 1.1. Authority

Crossroads may issue bonds for any school expenditures as prescribed in state law.

## **APPENDIX N**

### **POLICY REGARDING PROCUREMENT FOR FACILITY DEVELOPMENT**

#### **Section 1. Specifications for Facility Development.**

To ensure that all new and remodeled facilities are designed to best implement the educational program of Crossroads, either the Principal or the Executive Director will provide for the development of detailed educational specifications to apply to the design and construction of new or remodeled buildings. The preparation of educational specifications will serve the following purposes:

1. Clarify and consolidate the thinking of the staff, administration, Board and community on the needs, desires and objectives of educational programs to be conducted within the proposed new or remodeled building.
2. Organize important information in a manner that can be easily and clearly interpreted by an architect.

Section 1.1. When educational specifications are prepared, an introductory section will be devoted to a brief description of the community, enrollment trends, and the educational philosophy of Crossroads. Educational specifications are detailed descriptions of the following items:

1. Activities that will take place in the building.
2. Organization of instruction and curriculum to be housed in the building.
3. Facilities needed, equipment required and space relationship to other facility elements.
4. Pertinent budget and other governing factors.

Section 1.2. The persons involved in developing educational specifications described above should include:

1. The Board, which adopts policies, approves final specifications, employs the architect and provides the budget;
2. The Superintendent, who provides administrative leadership, interpretation and evaluation; and
3. The Principal, staff members, students and patrons, who utilize the facilities;

Section 1.3. Consultants may be used in the development of educational specifications when deemed necessary by the Executive Director and the Board.

Section 2. Engagement of Architects, Engineers and Construction Managers. Crossroads may need to engage the services of an architect, engineer or construction manager when the Board determines the need to plan, design, improve, alter, substantially repair, or construct a building or structure. Crossroads recognizes that hiring architects, engineers or construction managers who have performed acceptable work for Crossroads in the past promotes continuity, efficiency, and quality. Crossroads also recognizes that a construction contractor retained by Crossroads may wish to work with a particular architect, engineer or construction manager with whom it has a solid working relationship. Crossroads will observe the procedures as outlined below when selecting architectural, engineering or construction management services.

Section 2.1. When Crossroads determines that it may need to engage the services of an architect, engineer or construction manager, the Board shall first attempt to select and conduct contractual negotiations for such a service with a professional who falls within one of the two following categories: (1) any architect, engineer or construction manager who has contracted previously with Crossroads to provide services to Crossroads; or (2) any architect, engineer or construction manager who has been recommended to Crossroads by a construction contractor or other professional with whom Crossroads is familiar.

Section 2.2. If the Board determines that an architect, engineer or construction manager selected from one of the two categories described in Section 2.1 is appropriate for the project contemplated, then contractual negotiations may be conducted with that architect, engineer or construction manager, and a contract may be executed between Crossroads and that professional. The determination of whether a particular architect, engineer or construction manager is "appropriate" for a project is discretionary on the part of the Board.

Section 2.3. If Crossroads cannot agree upon the terms of a contract with the architect, engineer or construction manager whom it has selected and with whom it has negotiated, or if Crossroads determines that a professional selected according to this policy is not appropriate, Crossroads will then attempt to select an appropriate architect, engineer or construction manager through advertisements deemed appropriate by the Board inviting the submission of proposals or by directly contacting other architects, engineers or construction managers. After making its selection pursuant to this Section 2.3, Crossroads will attempt to negotiate a contract with that professional. Crossroads will continue to follow the procedures outlined in this Section 2.3 until a contract has been executed between Crossroads and an appropriate architect, engineer or construction manager.

Section 2.4. Under this policy, the terms architect, engineer, construction manager and professional include, but are not limited to, any individual, firm, partnership,

corporation or other entity providing architectural, engineering or construction management services.

Section 3. Engagement of General Contractor. The Board may desire to engage the services of a general contractor when planning, designing, improving, altering, repairing, or constructing a building or structure. Crossroads recognizes the need to enter into contracts with qualified contractors at a price Crossroads considers to be fair and reasonable. It shall be the formal policy of Crossroads to observe the procedures set forth below when Crossroads determines that general contracting services are needed.

Section 3.1. When Crossroads determines that it may need to engage the services of a general contractor, the Board shall select a general contractor and negotiate with that general contractor to obtain a contract that is fair and reasonable. To select a general contractor, Crossroads shall advertise and solicit proposals from qualified general contractors in the following manner:

1. If the total cost for the project exceeds five hundred thousand dollars (\$500,000), the solicitation shall be advertised for a period of ten (10) days in either (a) one (1) newspaper of general circulation in the city, county or state in which the project is located; or (b) one (1) or more business, trade or minority newspapers with circulation in the city, county or state in which the project is located.
2. If the total cost of the project is five hundred thousand dollars (\$500,000) or less, the solicitation need not be advertised.

Section 3.2. Solicitations shall require the bidders to submit the following information:

1. Fees for overhead and profit.
2. Reimbursable costs for reimbursable items.
3. Financial strength.
4. Qualifications.
5. Demonstration of good faith efforts to achieve compliance with federal, state and local affirmative action requirements.
6. References from owners for whom construction management services have been performed.
7. Demonstration of ability to perform projects comparable in design, scope and

complexity.

8. Qualifications of personnel who will manage the project.
9. Demonstration of successful management systems which have been employed for the purposes of estimating, scheduling, and cost controls.

Section 3.3. If a general contractor responds to the Board's request for proposal that has been engaged by the Board to perform general contracting services on prior construction or rehabilitation projects, the responding general contractor may omit information related to items 4-9 of Section 3.2 above in its response to the extent the Board has the foregoing information in its possession or otherwise has working knowledge of the information that would have been submitted based upon the Board's prior working relationship. If the Board selects a general contractor on the basis of the above factors, then contractual negotiations may be conducted with that general contractor and a contract may be executed between Crossroads and that general contractor.

Section 3.4. If the Board cannot reach an agreement upon the terms of a general contractor services contract through negotiations with the selected general contractor, then the Board will attempt to select another general contractor and negotiate a contract with that general contractor. The Board will continue to follow the procedures outlined in this policy until a contract has been executed between Crossroads and a general contractor.

Section 3.5. The Board shall not award a contract for general contracting services on a negotiated basis to any general contractor (or a firm that controls, is controlled by or shares common ownership or control with a construction manager, should Crossroads engage a construction manager to perform construction management services related to the project), unless such general contractor:

1. Guarantees, warrants or otherwise assumes financial responsibility for the work of others on the project.
2. Provides Crossroads with a guaranteed maximum price for the work of others on the project.
3. Furnishes or guarantees a performance or payment bond for other contractors on the project.

Section 3.6. Following the engagement of a general contractor and the initiation of such general contractor to perform work on the proposed project, the Board shall withhold the acceptance of new construction or rehabilitation until all work is complete and the building(s) are certified complete by the agent or employee of the Board engaged to supervise the project in consultation with the architect.

Section 3.7. Under this policy, the term project shall mean the erection or construction of a building or structure or the improvement, alteration or repair of a building or structure.

Section 4. Retirement of School Facilities. Certain school buildings may no longer be adequate for instructional purposes and should be used to benefit Crossroads or the public in other ways. In determining when a facility is to be retired from regular school purposes, the Board will be guided by a combination of factors, to include:

1. Review of the in-depth demographic studies and population groupings.
2. Age and current physical condition of the building, its operating systems and program facilities.
3. Adequacy of site, location, accessibility, surrounding development, traffic patterns, and other environmental conditions.
4. Reassignment of children, including alternative plans, according to Board policy.
5. Transportation factors including number of children bused, time, distance and safety.
6. Alternate uses of the building.
7. Costs/savings
  - a Personnel
  - b Site operation
  - c Transportation
  - d Capital investment
  - e Alternate use

If the Board determines to close a school building that it owns or retains possession of by lease or otherwise, it will first consider other uses that the Board might make of the building; then it will consider its sale or early lease termination.
